

CHRISTIAN BROTHERS

FALCONS

**NEW CHRISTIAN BROTHERS
FALCON IDENTITY SYSTEM**

PREPARED BY PAGE DESIGN
MAY 5, 2004

This binder is a reproduction. Color representations are not exact. Refer to Pantone #'s for accurate colors when ordering materials.

CHRISTIAN BROTHERS FALCONS IDENTITY SYSTEM

PREPARED BY PAGE DESIGN
MAY 5, 2004

This extensive document contains all iterations of the logo for use in 2 color and 1 color reproductions on dark or light background. The .eps files on the included CDs are set up in Illustrator 8.0 for a Macintosh and for PC and can be used for a wide variety of uses in print embroidery or silkscreen. The .jpg files are RGB files at a medium resolution, good for use on the web and very small internal document reproductions. We would recommend calling Page Design, Inc. at 916-457-0108 for any technical questions and advice on what files should be used for your application. Each page in this book is an exact printout of a corresponding file. Each file has a collection of logo art on it. The common logo art page, in the back of the book, has a catalog of individual RGB .jpg files for use on the web and very small internal document reproductions. These individual files are in the COMMON ART folder on the CD, AND SHOULD ONLY BE USED ON A LIGHT BACKGROUND.

The final colors are PMS 541 (blue) and PMS 200 (red). these colors would pertain to most usages. The final colors used for uncoated paper stock are different and are PMS 7462 (blue) and PMS 200 (red)
