A DAY TO REMEMBER

Founder's Day

Looks like the CB boys are enjoying their day out of the classrooms as they prepare to take out the teachers in the dunk tank (James Dewey), play some tunes, hang out with their buddies, and pose with the CB hotties (Nick Leathers & Madilyn Dillen).

These cool cats take their autographs seriously. Kenny Simmons, Kevin Amegin, and Max Jablonsky want to be remembered for the susperstars they are, while Morgan Dahl hits those high notes.

Former Sophomores Kelly Vellanoweth, Natalie Rowell, and Sal Faro are "thumbs up" for an exhilarating Founder's Day.

A DASH OF CULTURE

1. Children from a local dance studio move and groove as they show CB students a thing or two about hip-hop dancing!
2. The APC kids celebrate after an energetic performance.
3. A slight runway fiasco! "Make it work!"
4. Lauren Speed, former student, keeps in tune to the beat of the music.

Multicultural Week

(above left) Jazmine Santacruz and Jeanette Rodriguez hit the runway for a MAYA-themed fashion show.

(top right) "Estoyiego!" Translation: "I'm blind!" CB students take a swing at the Maya club piñata.

(bottom right) Delaney Alston, former CB student! Melissa Chavarria-Sarille, and Albert Devalos chow down on authentic Mexican cuisine.

(left) Rosy Trejo, Yvette Espinoza, and Alexys Padilla strut their stuff on the cat walk. America's Next Top Models?

A RED CARPET EVENT

- 1) Scott Hackney and his date are looking fabulous.
- 2) Erika Jahannassen and Justin Demaniew take advantage of the photo op.
- 3) Aaron Domingo and Monica Hudnall pose as they await the dance floor.
- 4) Michaela Newman and Spencer Binkerd smile from ear to ear.
- 5) Mr. Zannetti is lookin' classy as he debates whether to "walk it out" or not.
- 6) Morgan and Jason Huestis sport thier designer apparel.
- 7) Maren Gallagher and Ben Vernasco look like a million bucks as they get ready to bust a move.
- 8) Matt Delgado, Coco Evashenk, and Lauren Lahey savor their meal before entering dance-floor mania.

THAT SCAR IS HARDCORE

"I ran into a door."
Nick Schumann, 09

"I was galloping on my horse through a pasture while my friend was riding her horse right next to me. I thought it would be fun to jump from my horse to hers while riding at full speed. I overshot my target..."
—Kelsey Sharp, 12

"A bunch of cross-country runners and I were in this vineyard in Middletown playing 'Truth or Dare' around midnight. We had been playing for a couple of hours when we thought we saw some people spying on us, so I volunteered to chase them down. I took off down a dark trail. I was so focused on catching them, that I didn't realize that the road veered left. I ran straight into some barbed wire and got my thigh caught in it. I walked back to the group with a gash in my leg that looked like I had been mauled by a cougar and I asked, 'Does anyone have a first-aid kit?' — Gabriel Golden, 12

"Last fourth of July, I was setting off some fireworks with my friends when one of them accidentally went off too early and caught my arm on fire. It left a scar in the shape of a lower case 'J' for James!"
—James Ward, 11

"I was swimming in Hawaii and a tiger shark bit off my arm and they had to reattach it in the hospital. There are three different scars from that darn tiger shark!"
—Shagla Tirk, 10

"I was playing basketball with my two neighbors. One tripped over me and I fell head first into the street. I still have a rock in my head from that incident!"
Geanna Flavetta, 11

SUMMER LOVIN'

Falcons Soar The Globe

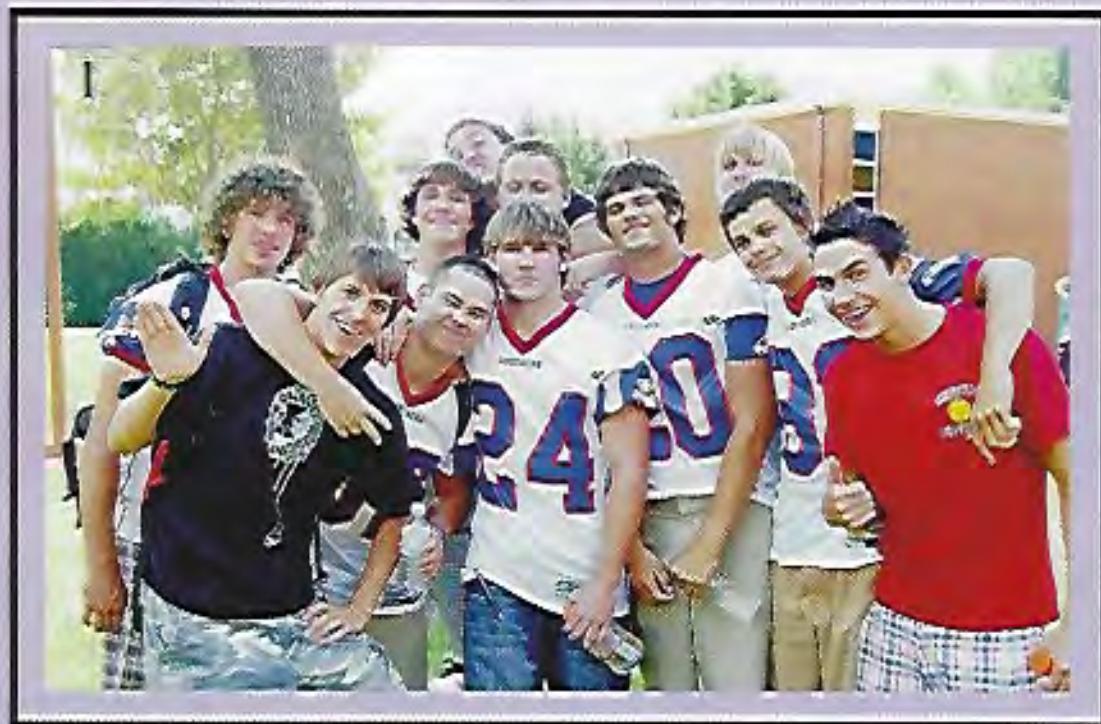

1. Spencer Tierney takes to heart the old saying, "When in Rome...take lots of pictures!" 2. Annie Stelmel takes a break along with her classmates Joe Lipper, Evann Whitelam, and Joe LaBnola on their whirlwind European tour. 3. CB travelers make time for a picture as their breath is taken away in Les Beaux. 4. Ms. Perone immerses herself in East Indian culture. 5. Mrs. Holmes and her daughter Kimberly acclimate to Alaska's weather while nature watching. 6. Ms. Cassetta and her granddaughter Claudia watch their footing at the "Top of the Rock" at New York City's Rockefeller Center. 7. Mr. and Mrs. Nelson turn for a scenic picture in front of Frank Lloyd Wright's famous home in Ohipyle, Pennsylvania. 8. BEHIND THE SCENES

Student Life

1. Junior football boys prepare for the big game later by eating healthy snacks and talking smack about the game.
2. Best friends, Alicia Shaefer and Claire Peletta, sit together at break and gossip about the cute boys in their senior class.
3. No camera shy boys in this group of Juniors. How cute!
4. Sophomore heart-throb, Kenny Simmons, smiles with excitement after his JV football team defeats El Camino.

7. These freshmen girls enjoy their first few months of school, as they look forward to the year ahead of them.

SPIRIT WEEK

Below: The first spirit day of the year was Spotlight Day. Students wore red if they were already taken for homecoming, yellow if they were unsure, and green if they were single and looking for a hot date!

To the right: Comfy Day is always CB's favorite. Everyone showed off their favorite pair of DJ's or sweats. Even some of the teachers joined in the fun.

Below: CB students flaunt their Hawaiian spirit! Hawaiian Lei's, tacky flowered shirts, and grass skirts abound on Hawaiian Day during spirit week 2007.

To the right: Identical twins? Well, almost - everything matches, from their hair, to their jewelry, to their pants and their shoes. It's hard to tell them apart!

NIGHT RALLY

The night moves on and the competition becomes fierce as the classes duke it out for the title of "Cocoa Puff Master." Upper and lower divisions cheer their classmates - the sophomores become the victors.

With the support of football stars Sean Peterson and Justin Demianew, Mary Dundon stands tall during the smash hit performance. Alaisa Robinson looks on in alarm, hoping the boys won't drop their pretty charge.

Seniors Trey Harmon, Michael Block, and Taylor Chamberlain get ready to crown the prince (Matt McCarthy) and princess (Carly How) of the Junior class.

"Gotta catch me ridin'" The competition of the night heats up as CB shows us how to ride a cooler in style!

"I want a boy with a short skirt and a loooong jersey!" CB football players strut their stuff as they shake it for the most anticipated performance of the night.

HOMECOMING GAME

CB cheerleaders maneuver the sign as the varsity football players get pumped up for the big game against Cordova.

Kristen Miller and Brittany Johnson fly high as CB cheerleaders perform their final half-time routine. Basing Brittany is a smiling Mary Dundon.

"Are you ready for some football?!"
The varsity football line awaits Cordova's first snap of the game.

Junior Josh Tucker goes for a touch-down to win the game against Cordova, with a final score of 27-13.

Brittany Johnson nails a pike basket toss.

DISCO INFERNO

Ms. Lystrup and Marion Lara shake up the dance floor - "You go, Ms. Lystrup!"

Sammie Moore and friend take a break from Shakin' their groove to pose for a quick snapshot.

Photo op! These superstars are looking fabulous on this special night!

Awwww! Adrian Speed and Tricia Upper didn't go as dates, but still look as cute as can be together.

Class of 2008--

We have come a long way together, through thick and thin. We have evolved from being timid freshman, coming in shy and new, to becoming seniors who "rule the school". Be sure to never forget the times we've shared together...

Never forget the 1st day of school, a freshman wandering the halls

Never forget the excitement of beginning a new year

Never forget the days we thought would never end

Never forget the days we never wanted to end

Never forget the days when all we wanted was to nap

Never forget the classes we actually napped through

Never forget the horrible "Senioritis" that hit sophomore year

Never forget the razor burn from the Dean's 99 cent razor

Never forget insisting that your jeans aren't blue

Never forget the rainy day reminders of staying off the grass

Never forget senior privileges (at last)

Never forget the laughs we've had together

Never forget the tears we shed together

Never forget the friends we've made

Never forget the teachers who helped us along the way

Never forget each other

Never forget who we are and where we came from

Never forget the good times OR the bad

Best...

Stop Ma! You're Embarrassing me...

Chris Small, 11

I was driving home from school and I rear-ended a car. And if that wasn't bad enough, Ms. Greene, my sophomore religion teacher, saw me in the act too!

Nick Lunetta, 10

My friends and I attended a play that my friends were in. While my friends were goofing around backstage, I got separated from them and a little lost. I ended up walking on stage while the play was going on; I COMPLETELY froze up.

Carly Trelford, 11

I was running up the stairs to the 200 wing and I totally biffed it and fell on my face! There were people all around me on the steps, and of course, they all lost it laughing. But everyone trips on the stairs, right?

Nico Chavez, 10

I walked into the same wrong classroom, twice in one set!

CLASS OF

There are places I'll remember
All my life though some have changed
Some forever not for better
Some have gone and some remain
All these places had their moments
With lovers and friends I still can recall
Some are dead and some are living
In my life I've loved them all

But of all these friends and lovers
There is no one compares with you
And these memories lose their meaning
When I think of love as something new
Though I know I'll never lose affection
For people and things that went before
I know I'll often stop and think about them
In my life I love you more

Though I know I'll never lose affection
For people and things that went before
I know I'll often stop and think about them
In my life I love you more
In my life I love you more

LOOK WHAT I CAN DO!

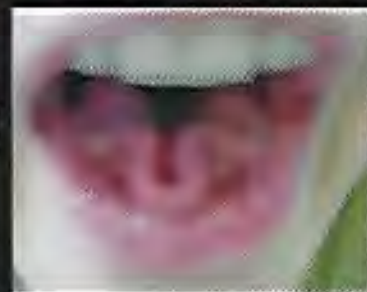

CB'S GOT TALENT

Sophomore Simone Nieves shows off how she can cross one eye while the other stays straight. Who are you looking at, Simone?

Britta Swanson (11) displays her unique ability to touch her tongue to her nose

Maren Gallagher (12) can transform her tongue into a clover, a very unusual talent. Maren must be one lucky girl!

Senior Anthony Sylva amazes people as he becomes a human-bubble-blowing machine. Wonder how far that bubble traveled before it popped?

Life, it's ever so strange
It's so full of change
Think that you've worked it out
then BING

CLASSE OF

Right out of the blue Something happens to you
to throw you off course and then you
Breakdown, Yeah you breakdown
Well don't you breakdown

Listen to me

Because, it's just a ride, it's just a ride
no need to run, no need to hide
It'll take you round and round

Sometimes you're up sometimes you're down
It's just a ride, it's just a ride don't be scared
don't hide your eyes

It may feel so real inside but don't forget it's just a ride
Truth, we don't wanna hear

It's too much to take

Don't like to feel out of control

So we make our plans

Ten times a day

And when they don't go
our way we breakdown

Yeah we breakdown

Well don't you breakdown

Listen to me

Slowly, oh so very slowly
accept that there's no getting off

So live it, just gotta go with it
coz this ride's, never gonna stop

Breakdown, Don't you breakdown

No need to breakdown No need at all

Because, it's just a ride, it's just a ride
no need to run, no need to hide

It'll take you all around

Sometimes you're up

sometimes you're down

It's just a ride, it's just a ride

don't be scared now

dry your eyes

It may feel so real inside
but dont forget enjoy the ride

Just a Ride, Jern

FRESHMAN REFLECTION

What was the best/worst part of
Freshman year?

Maddy Alliotti feels that the worst part about being a freshman is having to be around "all the upper classmen and feeling really small." Maddy also recalls that "it was really uncomfortable at first and [she] didn't know what [she] was doing or where [her] classes were for like a month."

Diego Garcia's least favorite aspect about being a freshman is "being the youngest on campus." Don't worry, Diego, soon you will be ascending in the social ranks...

Ryan Oehler's favorite thing about freshman year so far has been participating in Football and Rugby

Jamie Rodota exclaims that the worst part about being a freshman is "being the only freshman on Varsity Water Polo." What a tough life, Jamie...

Erin Wakabayashi's favorite part of freshman year was "lock-in, because it was a lot of fun getting to know everyone." We all had some special moments at lock-in too, Erin

JUST CAN'T GET ENOUGH...

Favorite scenes from "Superstar!"

Left:

Mr. Milton is a tough guy, but sometimes he gets nervous too. In that case, he uses this little help a hand.
From Mary Katherine Gallagher

Isaiah Yeager, 11

My favorite scene from Superstar is the airport scene. I wish true

Alasha Robinson, 12

The tree scene. She loves nature and I love nature too.

These freshmen unanimously agree that any dancing from Superstar has to be the best. They can't contain their urge to show off their cool moves!

Megan Schaap, 11

"Go drink a bottle of yourself, Evan. Best comeback ever!"

Joaquin Lopez, 10

Ring time! Ni ferrel was Jesus

Rayo Perez, 11

"SUPERSTAR! I'm one too!"

HOLY BOWL XXXVII

You make sure they remember FOREVER the night they played the Falcons!

As we went into the 37th annual Holy Bowl game against Jesuit at Hughes Stadium on September 22, 2007, all three teams were undefeated. The Freshmen did a great job with a nail-biting 7-6 victory. Our JV team dominated the field with an impressive 49-0 score. Although very disappointed with a close 32-29 loss, our Varsity team still had much to be proud of. Falcons, keep up the great work!

FAREWELL, LADY BIRD

The world said goodbye to Claude Ake Taylor, aka Lady Bird Johnson, at the age of 94. Lady Bird was known for her role as the quintessential political wife. She campaigned tirelessly alongside her husband and even used her inheritance funds to assist with his bid for political office. After Lyndon Baines Johnson became the nation's 36th president, Lady Bird worked as an advocate for the beautification of America and the Head Start program.

ROVE RESIGNS

President Bush's long-time political adviser announced his resignation and left the White House in August 2007. Karl Rove was the latest in a string of administration resignations following the Democratic takeover in Congress. Rove's departure from the White House came as a result of Chief of Staff Josh Bolton's request for staffers to resign before Labor Day or commit to serving through the end of Bush's term.

QUEEN ELIZABETH HITS MILESTON

Britain's Queen Elizabeth II became the country's oldest reigning monarch when she surpassed the record set by her great-great-grandmother Queen Victoria. Victoria lived 81 years and 243 days, and Elizabeth surpassed that record. However, the longest-serving monarch record still belonged to Queen Victoria, who reigned for nearly 64 years. Queen Elizabeth has reigned for 55 years since her coronation in 1952.

SANCTIONS FOR SECURITY

According to Iranian President Mahmoud Ahmadinejad, Iran's nuclear weapon development was a closed issue. However, despite repeated demands from the U.N. Security Council, Iran did not suspend enrichment of uranium. The council responded by imposing increased sanctions on Tehran for its refusal to comply. Iran maintained that its nuclear program was aimed only toward generating electricity.

LEAD SCARE RAISES CONCERN

Chinese products fell under scrutiny when potentially dangerous levels of chemicals and toxins were found in a variety of products, ranging from pet food to children's toys. Mattel was forced to recall millions of toys made in China; other products under investigation included shrimp, commercial steel, laptop, and Boy Scout badges. Ultimately, American companies were held responsible for the quality of their products in the marketplace, but monitoring quality was an enormous task due to the prevalence of Chinese products in the United States.

TRAGEDY IN MINNESOTA

On August 1, 2007, the unthinkable happened in Minneapolis when the Interstate 35W bridge collapsed during rush hour. The 1,807-foot bridge fell into the Mississippi River and onto roadways below in less than 4 seconds. As a result, there were 146 injured and 33 lives lost. The National Transportation Safety Board (NTSB) released its first report in December, revealing that a design error resulted in undersized gusset plates for the truss bridge, which was first opened in 1967. The bridge collapse prompted an increased number of safety inspections for bridges nationwide.

SALES SLUMP

The housing market continued to battle tough times when sales by homeowners hit a record low in October. Economists pointed to the excess supply of homes on the market and adjustable rate mortgages as reasons for the slump. In December, President George W. Bush and policy makers responded by cutting the federal funds rate for the third time that year.

U.N. TROOPS TO AID DARFUR

The United Nations Security Council authorized calling up to 28,000 troops and police to supplement the 7,000 African Union force in Sudan's Darfur region. The combined United Nations African Union operation aimed to help resolve over four years of conflict in Darfur. More than 200,000 people have been killed and 2.5 million have been displaced due to the unrest and fighting in the area.

BHUTTO ASSASSINATED

Pakistan opposition leader Benazir Bhutto was assassinated after a campaign rally. Bhutto's assassination occurred just weeks before the country was to hold a parliamentary election in which she was hoping to win a third term of leadership. Bhutto, who led Pakistan from 1988 to 1990 and again from 1993 to 1996, was the first female prime minister of any Islamic state. Bhutto had been the target of several assassination attempts by Al Qaeda, the Taliban and Pakistani jihad groups.

BROWN PROMISES CHANGE

After more than a decade in power, Prime Minister Tony Blair turned over No. 10 Downing Street to the new British Prime Minister, Gordon Brown. The former treasury chief promised a "new government with new priorities." The Prime Minister's call for reform included changes in international institutions to reflect the new global society and the rise of Asia.

DEMOCRACY DEFENDER DIES

Boris Yeltsin will be remembered as the man who brought democratic reform to Russia by ending over 70 years of Soviet Communism. The former Russian President died on April 23, 2007, of heart failure at the age of 76. Yeltsin was an international pacifist when he stood on top of a tank in Moscow during a coup attempt against Soviet President Mikhail Gorbachev.

CALIFORNIA SCORCHED

Nearly two dozen wildfires raged in the Los Angeles, San Diego and San Bernardino areas of California. The blazes, which were fueled by the Santa Ana winds, caused at least 500,000 people to flee their homes and resulted in the largest evacuation in state history. The fires claimed the lives of 16 people and racked up over \$2.2 billion in damage costs.

THE LONG RACE

The 2008 presidential campaign made headlines before a final candidate was even selected. The race for the presidency was already in full swing as of early 2007, which made it the longest election race in history. A variety of candidates made their bids for the White House, as Americans waited to hit the polls on November 4.

WRITERS REACH RESOLUTION

For the first time in nearly 20 years, the Writers Guild of America won't go on strike in November 2007. The writers sought compensation for work distributed via the Internet, digital media, and unionized freelance writers working on reality and animation shows. Writers voted to end the three-month strike on February 12 after fair compensation was negotiated.

MORE MPGS

President George W. Bush signed an energy bill that updated automotive fuel economy standards for the first time in more than three decades. The new law required a corporate average of 25 miles per gallon (mpg) by the year 2020. It also boosted federal support for alternative fuel research and energy conservation efforts. The previous fuel economy standards, 27.5 mpg for passenger cars and 22.2 mpg for light trucks, were established in 1975.

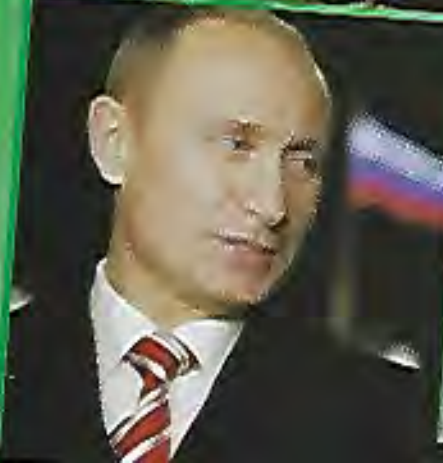

IRAQ UPDATE

In September, U.S. commander in Iraq, Gen. David Petraeus, announced that military goals of reduced killings in Baghdad and nationwide had been met. Yet, Iraqis growl for a requested U.S. forces to remain in place for the foreseeable future to help control internal security and to defend the region from external threat. The United States had been at war in Iraq since March of 2003.

HONORS FOR AIRMEN

President Bush and Congress awarded the Tuskegee Airman the Congressional Gold Medal for fighting to defend their country even as they faced bigotry at home. Hundreds of pilots saw combat throughout Europe, the Mediterranean and North Africa when they escorted bomber aircraft on missions and protected them from the enemy during World War II.

PUTIN IS PERSON OF THE YEAR

Time magazine has named Vladimir Putin its 2007 Person of the Year. When Vladimir Vladimirovich Putin took over as President of Russia in 2000, he found a country in chaos. With a sharp vision of what Russia should become and steadfast persistence to restore stability, Putin has put his country back on the map.

CELEBRATED OPERA SUPERSTAR

Fans bid farewell to opera's best-known superstar of the late 20th century on September 6, 2007. Luciano Pavarotti died at the age of 71 in his native home of Modena, Italy. He was undergoing treatment for pancreatic cancer that was diagnosed earlier in 2006. The beloved superstar was one of the few opera singers to win crossover fame. Pavarotti publicly performed his last aria, "Nessun Dorma," at the opening ceremony of the 2006 Winter Olympics in Turin, Italy.

TOP AUTOMAKER POSTS LOSS

General Motors Corp. reported one of the largest losses ever for an automotive company. GM lost \$38.7 billion in 2007, despite record revenues from its automotive business due to growth in emerging markets and favorable exchange rates. The automaker's large loss was the result of a third-quarter charge related to unused tax credits. GM narrowly held onto its title as the world's largest automaker; in 2007, it sold just 3,000 more vehicles than Toyota Motor Corp.

HIGHER MINIMUM WAGE

For the first time in a decade, a minimum wage increase was announced. Over a period of two years, the minimum wage increased from the previous minimum of \$5.15 an hour to \$7.25 an hour in 2009. The bill included \$4.84 billion in tax breaks for small businesses to provide support for the wage increase. As of late 2007, the Economic Policy Institute estimated that 4 percent of the work force of 5.6 million workers earned less than \$7.25 an hour.

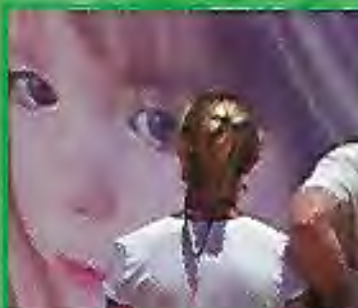

MURDOCH BUYS DOW JONES

After a four-month struggle with the Bancroft family, Rupert Murdoch acquired his top prize, Dow Jones & Company, publisher of the venerable Wall Street Journal. Murdoch's acquisition of Dow Jones was an impressive addition to his \$70 billion media empire that included more than 100 newspapers worldwide, satellite broadcast operations, the FOX television network and the online social networking site MySpace. Murdoch paid over \$5 billion for Dow Jones & Company, which had been owned by the Bancroft family since 1920.

DOLLAR DIPS

The U.S. dollar hit a record low against the euro in November 2007. The outgoing manager of the International Monetary Fund cautioned that an abrupt fall could trigger a loss of confidence in U.S. dollar assets throughout the global market. As rumors of a U.S. recession circulated, investors kept a watchful eye on markets worldwide.

MCCANN MYSTERY CONTINUES

After almost a year of investigation, the disappearance of 4-year-old Madeleine McCann remains unresolved. The British girl vanished in May 2007 from her family's hotel room at a southern Portuguese resort. Several suspects were named, including her parents, but no formal charges were made.

TOXIC TRAILERS

U.S. Health officials advised the removal of Gulf Coast hurricane victims from government-issue trailer homes due to toxic formaldehyde levels within the dwellings. Tests revealed fume levels up to 40 times the customary exposure. Indoor air temperature was a significant factor in elevated formaldehyde levels—the U.S. Center for Disease Control and Prevention recommended the relocation of residents before summer.

JONES ADMITS STEROID USE

In October 2007, five-time Olympic medalist Marion Jones admitted to using steroids in order to boost her winning performances. As a result, she was stripped of her honors and suspended from track and field competition for two years. In January 2008, Federal Judge Kenneth Karas sentenced Jones to six months in prison for lying to investigators about using performance-enhancing drugs and her role in a check fraud scam.

TORNADOES SLAM SOUTH

Fanfare surrounding the Super Tuesday primaries was dented by storms that ripped through the South and killed at least 57 people in several states, including Alabama, Arkansas, Kentucky and Tennessee. The rare winter storm, which spawned destructive twisters, was one of the deadliest in history for the month of February. As the extent of the lives lost and massive damage became clear, residents laid to rest their respects to the victims.

GOODBYE TO MERV GRIFFIN

Entertainer and businessman Merv Griffin lost his battle with prostate cancer at the age of 82. Griffin, the inventor of popular game shows Jeopardy! and Wheel of Fortune, started his entertainment career as a radio singer earning \$100 per week. He moved on to talk show fame as host of *The Merv Griffin Show*, which lasted over 20 years. After selling the rights to his game shows, Griffin built a multi-million dollar empire comprised of restaurants and casinos.

CASTRO CALLS IT QUITS

After 49 years in power, Fidel Castro announced his official resignation as president of Cuba and chief of the Cuban military. When Castro was 32, he captured the world's attention by gathering guerrillas to overthrow a dictatorship in 1959. He ruled Cuba with an iron fist and adopted a communist regime. After 81-year-old Castro formally relinquished his post, it was announced that Castro's brother and Cuba's defense minister Raul Castro would be the new Cuban leader.

BLU-RAY WINS BATTLE

Sony's Blu-ray won the format battle over Toshiba's HD DVD. Several factors contributed to Blu-ray's triumph, but movie studios and American retailers played a decisive role. In January, Warner Bros. Entertainment, joined Sony Pictures, Walt Disney Co., and Twentieth Century Fox in a commitment to only release movies in Blu-ray format. Retailers such as Target Corp., Wal-Mart Stores Inc., Blockbuster Inc., and Netflix Inc. also opted to sell only Blu-ray DVDs and hardware.

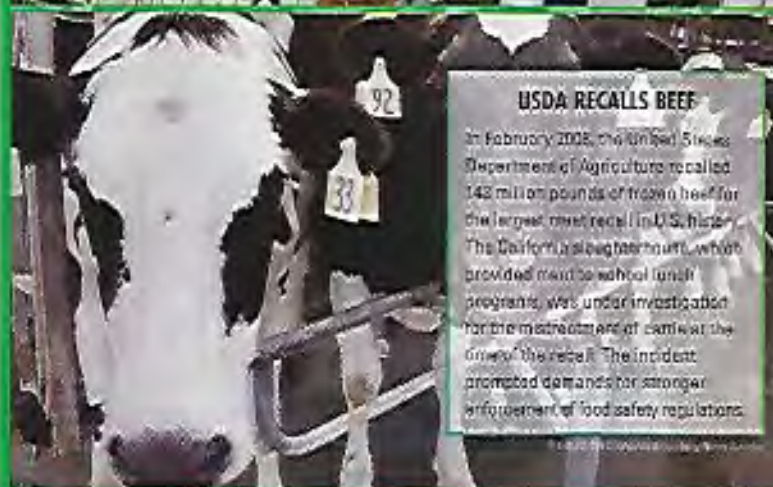

VIRGINIA TECH TRAGEDY

In the deadliest shooting rampage by an individual in U.S. history, Seung-Hui Cho killed 32 people on the Virginia Tech campus. After killing two fellow students in his dormitory, Cho proceeded to shoot and kill 30 students and professors in a classroom building before taking his own life. The catastrophic event at Virginia Tech prompted colleges nationwide to reassess their campus emergency response systems.

KOSOVO DECLARES INDEPENDENCE

February 17, 2008, marked the day Kosovo declared its independence, sparking protest in Serbia. Russia emerged as Serbia's strongest ally in the opposition of Kosovo's independence, while the United States and most European countries supported Kosovo's declaration. Russian Deputy Prime Minister Dmitry Medvedev and Serbian Minister for Kosovo Slobodan Samardzic vocalized their disapproval.

USDA RECALLS BEEF

In February 2008, the United States Department of Agriculture recalled 143 million pounds of frozen beef for the largest meat recall in U.S. history. The California slaughterhouse, which provided meat to school lunch programs, was under investigation for the mistreatment of cattle in the days of the recall. The incident prompted demands for stronger enforcement of food safety regulations.

MISSILE TARGETS SPY SATELLITE

In an unprecedented mission for the U.S. Navy, a missile was launched in February 2008 to intercept and destroy a disabled spy satellite. The satellite weighed about 5,000 pounds and was nearly the size of a school bus. Pentagon officials were concerned about the health hazards posed to humans if the satellite crashed in a populated area. The missile collided with the satellite at a combined speed of over 17,000 miles per hour 130 miles above Earth's surface.

RUSSIA HOSTS WINTER 2014

Russia's Black Sea city of Sochi was honored as host of the 2014 Winter Olympics. Russian President Vladimir Putin cited Sochi's unique combination of spring-like weather and guaranteed Caucasus mountain snow, which made the city an ideal host for Russia's first-ever Winter Olympic Games celebration. Jubilant crowds in Sochi's central square celebrated the announcement with fireworks and joyous cheering.

FANS GRIEVE FOR LEDGER

Australian actor Heath Ledger tragically died young at the age of 28. Ledger had been taking anti-anxiety and sleeping medication, which caused an overdose overdose. He was found dead in his New York apartment in January. Ledger was best known for his Oscar-nominated performance in the movie *Brokeback Mountain*.

UNDERDOG BECOMES TOP DOG

For the first time in the history of the Westminster Dog Show, a beagle took top honors. The winner of the 135th Westminster Kennel Club Dog Show in New York was a 3-year-old beagle named Leo. The famous beagle, along with his handler Aaron Wilkerson, won Best in Show before a sold-out crowd at Madison Square Garden, where more than 100 dog breeds were represented.

WORLD DISCOVERIES

FATAL SUPERBUG

As of 2007, more than 90,000 Americans each year contracted potentially fatal staph infections from a drug-resistant "superbug." The bug was called methicillin-resistant staphylococcus, or MRSA, and its bacteria was carried by healthy people where it lived on their skin or in their noses. It raised concerns because it became more common and it was resistant to penicillin. Without a vaccine for the superbug, the number of deaths caused by it each year could surpass the number of fatalities caused by the AIDS virus.

PANDA POOP TO PAPER

Chinese researchers from the Chengde Fiber Panda Breeding Base learned how to transform a two-ton daily load of panda waste into paper. The idea originated during a visit to Thailand, when they saw paper made from elephant dung. The researchers thought that their 60 bamboo-fed pandas, which produce about two tons of waste per day, could make an even finer paper. Their next step was finding paper mills to produce their fiber-rich material into high-quality paper.

MONSTER OF THE DEEP

English scientists shared their discovery of an 18-inch fossilized claw that was part of an ancient sea monster. The "monster" was believed to be an 8-foot-long sea scorpion that lived 300 million years ago, and it was the largest of its kind ever found. The scorpions were dominant for millions of years before larger fish stole their reign of the deep seas.

THAT'S CLAMTASTIC!

The record for the longest-living animal went to a quahog clam that was found off the coast of Iceland. The 405-year-old quahog clam, nicknamed "Ming" after the Chinese dynasty that ruled at the time of his birth, broke the record previously held by a 374-year-old clam. That was one mighty mollusk!

KING TUT REVEALED

Eighty-five years after the discovery of King Tutankhamun's 3,000-year-old mummy, Tut's face was unveiled for the first time in 2007. The pharaoh's mummified body was displayed for the public in a climate-controlled glass box to protect it from the damaging effects of humidity. The traveling Tut exhibit drew more than 4 million people during a four-city United States tour, and it increased tourism in Egypt as well—there were over 9 million visitors last year.

SKIN CELLS TO THE RESCUE

Research groups from Kyoto University and the University of Wisconsin in Madison have discovered two different genetic recipes that give ordinary human skin cells the power to turn into virtually any kind of human tissue. With this capability, a person's own skin cells could be used to mend a broken spinal cord or repair heart damage. The scientists behind this amazing discovery warned that actual use of the skin cells was still years away, but the breakthrough was a "tremendous scientific milestone."

FUEL ALTERNATIVE

Shell Oil and German biofuel company Dura Industries planned the European launch of a new road fuel called Sunfuel for late 2007. This new fuel was made from wool, chips and straw, and its program pilot for synthetic diesel was expected to shift the industry. The projected change involved using plant material waste instead of valuable food crops to create fuel. Sunfuel's cost was more than the price of oil, but Shell spokesmen expected the price to come down as production volume increased.

PURPOSEFUL APPENDIX

A team of surgeons and specialists at Duke University Medical School probed a purpose for the appendix. The small organ, located at the beginning of the large intestine, was found to be a storage place for helpful bacteria. The shape of the appendix, as well as focused studies, supported the hypothesis that the appendix's function is to store and supply healthy protective bacteria for the digestive system.

CATCH OF THE DAY

New Zealand fishermen hauled in a colossal catch when they captured the largest squid ever seen. The Colossal Squid (*Mesonychoteuthis hammonii*) weighed over half a ton and measured 33 feet in length. The enormous squid specimen was caught in the Ross Sea near Antarctica, just as it was finishing off a meal of Patagonian toothfish.

STEGER EXPLORES WARNING ARCTIC

In May 2007, Will Steger completed his expedition to the Canadian Arctic to investigate retreating glaciers and other signs of climate change, as well as how the changes affect Inuit people. Steger targeted "emerging leaders" to join his expedition because he wanted the expedition results to reach young people. The team included two Americans, two Norwegians, a Canadian and a British person.

VITAMIN D CRAVING

The "sunshine vitamin," otherwise known as vitamin D, was found to improve optimal health for humans. Sunlight triggers the human body to produce vitamin D, and most tissues and cells have receptors for the vitamin. A lack of vitamin D was linked to various ailments: tuberculosis, schizophrenia, multiple sclerosis, hip fractures, and chronic pain.

MIGHTY MOUSE

Paleontologists found the nearly complete fossilized skull of a giant prehistoric rodent in Uruguay. Based on an analysis of its 21-inch long skull, the rodent was estimated to weigh between 1 and 2.5 tons—about the size of a hippopotamus. Mighty Mouse, as the *Josephochoerus* monospecimen had been nicknamed, was a major find for researchers studying giant South American rodents.

GECKO GLUE

With the help of geckos, biomedical engineers and scientists at Northwestern University invented glue that works like the adhesive on Post-it® notes, but can also work on wet surfaces. The glue was named Geckel because the sticking properties of geckos and mussels inspired its development. Geckel is planned for use in the medical, military, industrial and consumer products fields.

DOUBLE CLONED BURGER

The Food and Drug Administration declared that meat and milk from cloned cattle, pigs and goats are safe to eat, which made the United States the first country to approve cloned food for consumption. The agency announced that it would not require food from clones to be labeled in the marketplace. The FDA awaited the public response to its news before moving forward; a 2000 survey documented that 64 percent of Americans are uncomfortable with animal cloning.

HONEY BEE MYSTERY

Researchers were on the lookout for a mysterious honeybee killer in the United States. The vanishing syndrome, labeled colony collapse disorder (CCD), caused bees to abandon their hives and to disappear entirely. A genetic analysis of the affected bees revealed a link between CCD and Israeli acute paralysis virus (IAPV), which causes shivering wings, paralysis and death in bees.

ARID OUTBACK

For the seventh year, Australia faced what has been called the country's worst drought in a millennium. Drinking-water reserves dipped to record lows across the country and Billboards posted alarming consumption statistics. Experts warned that many nations around the world may have to adapt to less water. In response, conservation incentives and water recycling programs were implemented throughout Australia and served as an example for other countries.

NET CAPTURES NEW SPECIES

The Philippines added a new bat species to its list of 74 native species, 24 of which can only be found in the Philippines. The Mindoro Stripe-Faced Fruitbat was discovered when it was accidentally captured in a net. The orange bat, with a distinctive white striped face, was found on an island south of Manila. Researchers from the University of Kansas and the Comparative Biogeography and Conservation of Philippine Vertebrates (CBPCV) were responsible for the discovery.

ENDANGERED NO LONGER

After a four-decade struggle to avoid extinction, the American bald eagle was officially removed from the endangered species list on June 28, 2007. The eagle population rose in 2007 to an estimated 10,000 mated pairs, compared with 417 eagles documented in 1963. Bald eagles continued to be protected by state statutes, the Migratory Bird Treaty Act and the Bald and Golden Eagle Act.

REEFS IN DIRE STRAITS

A new threat loomed on the horizon for the world's reefs in 2007. Due to an increase in carbon dioxide emissions, the oceans became more acidic. Oceans soak up about a quarter of all CO2 emissions and this absorption changed its chemistry. Experts warned that coral reefs and the sea life that depend on them may not survive the century unless urgent action was taken.

TECH TOPICS

SUBTITLE GLASSES

Thanks to researchers at Madrid's Carlos III University, people with hearing impairments enjoyed going to the movies. The prototype for Subtitle Glasses included a mini-display that hangs over the right lens of the glasses to pick up the text that is wirelessly transmitted to it. The text is carefully timed to follow along with the movie, so that all moviegoers could enjoy the show.

VIRTUAL CITY VISIT

Google, the world's dominant search company, brought remote city streets into our homes with Google Maps' Street View. The map feature offered 360° panoramas of major cities such as New York, San Francisco and Chicago via the Web. City buildings, neighborhoods and landmarks across the United States became accessible for users who went to maps.google.com for a virtual stroll.

RISE AND SHINE

Inventors Eoin McNally and Ian Walton decided that an alarm clock was a completely unpleasant way to wake up in the morning. Instead, they created the glo-Pillow. The pillow was embedded with a grid of LEDs below its surface and used the gradual increase of light as a wake-up call. The programmable foam pillow simulated a sunrise to naturally wake people up and ease them into the day.

LET IT SNOW

Northern Tibet saw its first snowfall in 2007 through the work of the Tibet Meteorological Bureau. The Chinese bureau injected clouds with silver iodide particles to create the successful half-inch (1.3 cm) of artificial snow that fell in Tibet, about 4,500 meters above sea level. The snow experiment was a response to warnings of melting glaciers and drought in the Himalayan region.

VACCINE BLOCKS BIRD FLU

The Food and Drug Administration approved the first bird flu vaccine and announced plans to stockpile it for emergency use during a crisis. The FDA's approval of the vaccine came at a critical time for preparations. In 2007, the H5N1 strain of the bird flu affected seven countries and prompted experts to warn of a pandemic if the virus gained the ability to transfer from human to human.

FIFTIETH ANNIVERSARY OF SPUTNIK

The world's first artificial satellite was launched into space on October 4, 1957, and it signified the start of the Great Space Race. NASA Administrator Michael Griffin said, "The Sputnik accomplishment by the Russian people was responsible for the creation of the American space program." Fifty years later, Russians celebrated the Sputnik anniversary by leaving flowers at the tomb of Sergei Korolev, the visionary behind the Sputnik launch and the father of the Soviet space program.

BOOKS "TO GO"

After several years in development, the Espresso book machine was released in 2007. The \$50,000 Espresso machine printed a 300-page paperback on demand, complete with cover, in just three minutes for a cost of only a few dollars. There were initially 2.5 million books available for printing, which the machine can make in any language. The machine's creators, On Demand Books, predicted that eventually the book vending machine will have an infinite library available, due to its partnerships with Google and Open Content Alliance.

FORD SYNC'S UP

Ford and Microsoft joined forces to create Sync, a new automotive electronics system. Sync linked Bluetooth-enabled mobile phones, wireless and USB-based devices into a car audio system. The main appeal of Sync was that it could be controlled by buttons on the steering wheel or by verbal commands to read and write text messages, as well as access tracks of music by artist, title, and genre information. Sync was an available option for 12 of the 2008 Ford, Lincoln or Mercury models, and a planned option for all 2009 models.

NEW AGE MR. ROBOTO

After nearly three years of work, MIT researchers finalized Domo, their robotic creation. Domo was a new breed of robot designed to assist humans with daily living. Using its computerized, human-looking eyeballs, Domo performed tasks that included identifying objects, reaching for items and placing them on shelves. Congratulations Class of 2008

DE LA ROSA & CO.
INVESTMENT BANKERS

All of us at De La Rosa & Co. take great pride in the partnerships we have forged across this great state of ours.

Since our inception, De La Rosa & Co. has worked hard to cover the full spectrum of California life, from spurring economic development to providing public services.

De La Rosa & Co. has also made a long-term commitment to the communities we serve. It is gratifying to direct some of the benefits we receive back into improving educational performance and other areas we have identified as priorities.

As we near our 20th anniversary, with De La Rosa & Co. growing as a financial institution and sinking deeper roots as a corporate citizen.

Richard J. DeLaRosa
