Brittany Johnson sets for a stunt with her new bases, Nick Sullivan and Leo Vellutini.

How did the boys of CB show their spirit back in the day?? By attending the night rally of course!

Alex Haw, David Reed, Miguel Reyes, and Ricky Loa pose for a quick picture in their favorite mini skirts.

Senior cheerleaders, Megan O'Connor, Chayla McDavid, Nicole Ortega, Lora Walton, Kara Links, and Caty Kreis, smile for their very last night rally.

Lots of CB students anxiously await the announcement of class royalty.

# Homecoming Game

Homecoming Queen, Jessica Lam, and King, Polo Adamo, smile for their adoring fans.

Polo Adamo - what a guy. No, really!!

The homecoming game in '65 had one super snazzy float. Apparently they wanted to cage the McClatchy Lions!

Leo Vellutini takes a breather from sacking the quarterback.

Ms. Scarlet, Professor Plum, and Colonel Mustard represent the Sophomore Class Float.

Chelsea Cook blocks the sun out of her eyes, watching the intense game, and the Falcons have some bird talk.

## Swing Life Away- Rise Against

Am I loud and clear, or am I breaking up?  
Am I still your charm, or am I just bad luck?  
Are we getting closer, or are we just getting more lost?  
I'll show you mine if you show me yours first,

Lets compare scars, I'll tell you whose is worse.  
Lets unwrite these pages, and replace them with our own words.

We live on front porches and swing life away.  
We get by just fine here on minimum wage.  
If love is a labor I'll slave 'til the end.

I won't cross these streets until you hold my hand.

I've been here so long, I think that it's time to move.

The winter's so cold, summer's over too soon.

Let's pack our bags up, and settle down where palm trees grow.

And I've got some friends, some that I hardly know.

But, we've had some times I wouldn't trade for the world.

We chase these days down with talks of the places that we will go.

We live on front porches and swing life away.

We get by just fine here on minimum wage.

If love is a labor I'll slave 'til the end.

I won't cross these streets until you hold my hand.

Swing life away...

Swing life away...

Swing life away

Swing life away...

Dear Seniors,

Here's to the high school days that we thought would never end.

Here's to the acquaintances that turned into best friends.

Here's to late starts on Thursdays and watching K&BFT.

Here's to formal dances where we busted moves crazily.

Here's to not walking on the seal.

Here's to occasionally being late to class.

Here's to getting yelled at for simply walking on the grass.

Finally, here's to being the Class of '07;

We truly are the class from Heaven!

## These Are The Special Times

In these moments, moments of our lives  
All the world is ours, and the world is so right  
You and I sharing this time together, oh  
Sharing the same dream  
As time goes by we will find

These are the special times, the times we will remember

These are the precious times

The tender times, we'll hold in our hearts forever  
These are the sweetest times, these times together  
And through it all one thing will always be true  
The special times are the ones I share with you

With each moment, moment passing by

We'll make memories that will last our lives

As you and I travel through time together, oh oh yeah  
Living this sweet dream  
And everyday we can say

These are the special times, the times we will remember

These are the precious times

The tender times, we'll hold in our hearts forever  
These are the sweetest times, these times together  
And through it all one thing will always be true  
The special times are the ones I share with you

These tender moments, when heaven is so close

These are the moments that I know

These are the special times, the times we will remember

These are the precious times

The tender times, we'll hold in our hearts forever  
These are the sweetest times, these times together  
And through it all one thing will always be true  
The special times are the ones I share with you

The special times are the times I share  
The special times are the times we share  
The special times are the times I share  
With You

**U.S. SHARES SET RECORD HIGH**

U.S. stocks rose to a record high on October 18 when the Dow Jones Industrial average passed 12,000 for the first time in history. However, as Wall Street celebrated this new benchmark, market experts were skeptical. The record-high is reportedly overrated—experts caution that a few rising stocks do not indicate the actual status of the stock market or economic growth.

**FIRST FEMALE SPEAKER**

This year marked a historic moment in the House of Representatives. Nancy Pelosi (D-Calif.) was elected America's first female Speaker of the House. Upon taking the floor, Pelosi proclaimed, "This is a historic moment, for Congress, and for the women of this country. It is a moment for which we have waited more than 200 years." Pelosi plans to take on the broadest ethics and lobbying revision since the Watergate era.

**WHO SELECTS NEW LEADER**

Bird flu expert Dr. Margaret Chan was selected by the World Health Organization (WHO) to be the next director-general. Dr. Chan's expertise was highly valued by the WHO. She confronted the first human outbreak of the avian flu in 1997 and she was credited with successfully defeating Hong Kong's 2003 outbreak of severe acute respiratory syndrome (SARS). Chan was the first Chinese national to be selected for such a high-ranking U.N. post.

**CASTRO TRANSFERS POWER**

After 47 years in power, Cuban President Fidel Castro handed over control of Cuba to his brother Raul. The 88-year-old Castro stepped down due to medical reasons.

**LIQUIDS & GELS BECOME TABOO**

In August, British officials uncovered a plot to create explosives onboard an airplane by mixing liquids and gels. U.S. and British security was accordingly elevated, and travelers were not allowed to bring lotions, beverages or makeup in their carry-on baggage.

**DEMOCRATS WIN HOUSE & SENATE**

For the first time in 12 years, the Democrats won the majority in the House of Representatives. The mid-term elections also meant a victory for the Democrats in the Senate.

**A DAY WITHOUT IMMIGRANTS**

May 1, 2006, marked A Day Without Immigrants in select cities across the nation. Organizers of the event hoped that the day would impact restrictions on immigration by exposing the country's reliance on immigrant workers. Chicago had one of the largest turnouts—about 300,000 demonstrators marched downtown.

**VERDICT REACHED FOR SADDAM**

Almost three years after his capture, former Iraqi leader Saddam Hussein was sentenced to death. Hussein was found guilty of committing crimes against humanity. The verdict in the Hussein trial was delivered on November 5, 2006—only two days before the U.S. mid-term elections—and the execution occurred on December 30, 2006.

**TRAGEDY STRIKES LANCASTER COUNTY**

Violence rocked a one-room schoolhouse in Pennsylvania when Charles Carl Roberts barricaded himself and several students inside the Amish school. The hostage situation resulted in the deaths of five girls and the gunman, who took his own life. The Amish community tore down the school so that the site will remain a quiet pasture.

**VETERANS HOSPITAL UNDER FIRE**

Reports of substandard living conditions at the Walter Reed Army Medical Center initiated deeper investigations into the entire military health care system. During hearings, Congress learned of bureaucratic delays, unsanitary housing, and lax or poor treatment at Walter Reed. President Bush ordered a comprehensive review of the conditions, and he named Senator Bob Dole and former Secretary of Health and Human Services Donna Shalala to lead the investigation.

**JURY CONVICTS "SCOOTER" LIBBY**

After 10 days of deliberation, jurors in the trial of I. Lewis "Scooter" Libby found him guilty of lying and obstructing an investigation into the leak of CIA operative Valerie Plame's identity. Libby, who was Vice President Cheney's most trusted advisor and an assistant to President Bush, is the highest ranking White House official to be convicted of a felony since the mid-1980s.

**DEATH OF A DICTATOR**

Former Chilean dictator Augusto Pinochet died seven days after suffering a heart attack. Pinochet came to power in a quick, violent coup in 1973 and he was a controversial figure in Chilean politics. Pinochet ruled Chile for 17 years and has been in exile since 1990.

**NASA REVIEWS SCREENING PROCESS**

Due to the events surrounding Navy Capt. Lisa Nowak's attempt to kidnap romantic rival Colleen Shipman, NASA reviewed its psychological screening process for potential astronauts. In the past, the psychological evaluations focused on identifying red flags to rule out candidates. The NASA review emphasized changing the screening criteria to designate only the best candidates for space missions.

**NEW TEST FOR CITIZEN HOPEFULS**

A new exam for citizenship features questions that focus on concepts of democracy, and the rights and responsibilities of citizenship. Several interest groups provided input for the pilot test, including immigrant advocacy groups. The new exam is expected to be implemented nationwide in the spring of 2008.

**EXECUTIVE GUILT**

Former Enron Chief Executive Jeffrey Skilling and founder Kenneth Lay were found guilty of conspiracy and fraud after four years of investigation, testimony and jury deliberations. The men were convicted for lying to investors and the public about the financial health of Enron, before the company collapsed in 2001. Lay, 64, died in July of coronary disease while he awaited sentencing. Skilling was sentenced to 24 years in prison.

**A JOYOUS RETURN**

After four long years, Shawn Hornbeck reunited with parents Craig and Pam Akers. Shawn disappeared in 2002 at the age of 11, but recent searches for 13-year-old Ben Ownby led to the discovery of both missing boys. They were found in the Kirkwood, Mo., home of Michael Devlin, 41. The boys returned to their jubilant families and Devlin faced kidnapping charges.

**CLOSE CALL FOR CHENEY**

A suicide bomber attacked the entrance to the main U.S. military base in Afghanistan while Vice President Dick Cheney was there for a visit. Cheney stayed at the base after bad weather forced him to postpone his trip to the Afghan capital. A Taliban spokesman claimed Cheney was the target of the attack. However, U.S. Major William Mitchell said Cheney was not near the actual site of the explosion at the entrance because he was safely within the nearly impenetrable compound.

**FOUR YEARS IN IRAQ**

American troops have been in Iraq since 2003 and President Bush stated that we are making "gradual but important" progress there. However, the progress was not enough to convince the Democratic-controlled Congress to support Bush's request for an additional 21,500 troops and a \$100 billion war spending bill. President Bush maintained that U.S. involvement in Baghdad has resulted in "encouraging signs."

**UK PULLS TROOPS**

Withdrawing 2,000 British troops from Iraq may be one of Prime Minister Tony Blair's final legacies. The Prime Minister has announced his planned retirement for summer 2007, and bringing troops home was likely his last major operation. Blair's decision appeared to signal the beginning of the end for UK military involvement in Iraq.

**KEVORKIAN MAKES PAROLE**

Michigan state Corrections spokesman Leo Lalonde announced that Jack Kevorkian will be paroled from prison in June 2007. Kevorkian reportedly assisted in at least 130 suicides during the 1990s; he was imprisoned in 1999 for his role in one of the last

deaths. The ailing 78-year-old served 8 years of his 10-25-year sentence, and his attorneys reported that he has less than a year to live due to his own deteriorating health problems.

**BORAT—NAUGHTY OR NICE?**

British comedian Sacha Baron Cohen scored a surprise hit with the spoof documentary, *Borat: Cultural Learnings of America for Make Benefit Glorious Nation of Kazakhstan*. The movie made an unexpected \$100 million at the box office in the United States, but the film has sparked controversy over Borat's antics and the portrayal of the country of Kazakhstan. It has also resulted in several lawsuits against 20th Century Fox and One America Productions.

**SORROWFUL END TO TEXAS BEAUTY**

Anna Nicole Smith, the controversial model from Texas, died in Florida on February 8 at the young age of 39. A court ruled that her long-time companion and lawyer, Howard K. Stern, could bury Anna Nicole next to her son in the Bahamas. The custody battle over the paternity of Smith's daughter Dannielynn will continue between Stern and ex-boyfriend Larry Birkhead.

**BUFFET'S LEGENDARY GIFT**

Warren Buffet, the world's second richest man, announced that he will begin giving away his \$44 billion fortune to five philanthropic foundations this year. The Bill & Melinda Gates Foundation will receive the bulk of Buffet's wealth because its philosophies are in line with Warren's ideals. Buffet, 75, always planned to share his fortune with charitable organizations, but he decided to start during his golden years as opposed to leaving behind a huge estate upon his death.

**EVERYDAY HEROES ■ EVERYDAY HEROES ■ EVERYDAY HEROES ■ EVERYDAY HEROES ■ EVERYDAY HEROES**

Marvin L. "Hub" Nothen left Baylor University in 1929, when he was only one credit short of graduation. It was during the Great Depression and Nothen had to work in order to help his family. Nothen's selfless act did not go unnoticed. In 2006, Baylor University presented the 100-year-old with a Baylor diploma, cap and gown, and his official transcript. Although it was certainly unexpected, Marvin appreciated the honor of finally earning his degree.

Jaime Ortiz and his quick thinking likely saved the life of a two-year-old girl. Two toddlers had been playing near an open window, when one of them fell and was hanging from the second-story window sill. Ortiz jumped a fence and ran to the building in time to catch the falling girl in his arms. As the father of a five-year-old son, Ortiz was a humble hero and hoped that anyone could help a child like he did. The County Board presented him with a certificate of recognition for heroism in Arlington, Va.

#### DISCOVERY LIGHTS UP THE NIGHT

The Space Shuttle Discovery successfully lifted off from the Kennedy Space Center at 8:47 p.m. EST on December 9. It was only the 29th evening launch out of NASA's 117 shuttle flights. Discovery's first flight took place on August 30, 1984, and it has now successfully completed over 30 missions. Discovery traveled to the International Space Station to make repairs and landed back on Earth 13 days later.

#### SHRIMP SAVE LIVES

Who knew that tiny shrimp can save a soldier's life?! SAM Medical Products of Portland, Ore., developed a pourable bandage called Celox that is made of Chitosan, a structural element of shrimp shells. Celox is poured directly into a bleeding wound and applied pressure causes the positively charged Celox granules to bond with negatively charged red blood cells. The Celox creates a gel-like mass that stops bleeding. Since Celox is useful for both surface injuries and major wounds, it is planned to hit war zones by the end of 2007 with FDA approval.

#### IMPRESSIVE PROGRESS IN THE FIGHT AGAINST CANCER

For the second year in a row, the cancer death rate in the United States has declined. According to the American Cancer Society, early prevention and treatment are credited with the decrease. In addition, the U.S. Food and Drug Administration approved Gardasil, the first cancer vaccine, in June. The vaccine protects against cervical cancer, the second most common cancer in women.

#### HAWKING HONORED

Physicist Stephen Hawking has joined an elite circle which includes Charles Darwin, Albert Einstein

and Louis Pasteur by receiving the Copley medal for his work in theoretical physics and cosmology. Hawking, a mathematics professor at the University of Cambridge, has produced groundbreaking work on defining and gaining a greater understanding of black holes. The Copley medal of scientific achievement was first awarded by the Royal Society in Britain in 1751.

#### MICKY AND FRIENDS SHAPE UP

Disney developed new nutritional guidelines that limit sugar, fat and calories for products that bear a Disney character or logo. As a result, Mickey Mouse, Buzz Lightyear and other Disney friends will no longer appear on packages of sugary cereals, high-calorie snacks and other junk foods. Disney also plans to improve the nutritional value of meals served at its U.S. theme parks.

#### NEW MEANING FOR IRON STOMACH

Based on Dr. Martin Wikham's model, scientists constructed the world's first artificial stomach out of materials able to withstand corrosive acids and enzymes found in the human gut. The device may help in the development of super-nutrients that could fool the stomach into triggering a "full" response. Dr.

Wikham's artificial stomach incorporates the physiological elements of digestion including the contractions that break up food and move it along, just like human digestion. "It is so realistic that it can even vomit," adds Wikham.

#### SPIDERS HELP HUMANS HEAL

Scientists found that spider silk could be used to create fine sutures for surgeries, particularly to repair injuries to nerves or eyes without scarring. Researchers at Tufts University also discovered that spider webs could be used for regenerating ligaments in common knee injuries such as ruptured ACLs.

#### HAPPY BIRTHDAY, HUBBLE TELESCOPE

2006 marked sixteen years since the Hubble Space Telescope's launch in 1990. Although sixteen years old is young for humans, it is quite old in telescope years. To celebrate Hubble's sweet sixteen, NASA and the European Space Agency released Hubble's awe-inspiring photos of Messier 82, a galaxy located 12 million light years away in the constellation Ursa Major.

#### SAVING LIVES BY A STRAW

A new invention called the LifeStraw was introduced to provide clean drinking water for those in need. The LifeStraw was designed to work just like a drinking straw: the water passes through the disinfecting resin and bacteria are destroyed on contact. The LifeStraw was ready to help the more than 1 billion people worldwide without clean water to drink.

## COMPUTER VISION

A legally blind poet at the Massachusetts Institute of Technology designed a "seeing machine" that allows people with limited vision to see faces, read or study building layouts. The device plugs into a personal computer, uses light-emitting diodes to project images into a person's eye, and grants impaired users the ability to see words or pictures. The device only works for people who have retained some living retina cells.

## SCIENCE EXPLAINS YOUR MORNING HAZE

The intense grogginess that you may feel when your morning alarm goes off actually has a scientific definition and name: sleep inertia. According to a study published in the *Journal of the American Medical Association*, sleep inertia can cloud the brain even more than a total lack of sleep. This common condition can affect any healthy human by limiting the ability to think clearly.

## GOING WHERE NO WOMAN HAS GONE BEFORE...

Iranian-born U.S. businesswoman Anousheh Ansari became the first female space tourist on September 18, when she blasted off on a Russian Soyuz rocket. Ansari joined Russian cosmonaut Mikhail Tyurin and U.S. astronaut Miguel Lopez-Alegria for a 10-day trip to the International Space Station. It is rumored that Ansari paid at least \$20 million for her space adventure.

## LADY LIBERTY GOES GREEN

The Statue of Liberty's exterior is green due to the oxidation of her copper, but she's become "green" all the way through. Lady Liberty's torch is now lit by environmentally friendly "green" power generated from windmills. You won't see a windmill if you pay the Lady a visit—the windmills are located in Pennsylvania, and their power is pumped into a national energy grid. The government then taps into the energy grid to buy the power.

## BACTERIA DEFENDERS

A tooth-friendly strain of the bacteria *L. anti-caries* (found in

Yogurt), proved to be helpful—it prevented decay from sticking to tooth surfaces by forcing decay to clump together. Based on this information, developers worked to create new products such as chewing gum, toothpaste and mouthwash. Researchers also planned to test the special bacteria's effectiveness against the odor-producing bacteria that dwell in underarms and feet.

## CHEW ON THIS

Researchers at Santa Barbara Cottage Hospital in California found that patients who underwent abdominal surgery and chewed sugarless gum spent less time in the hospital. Since most abdominal surgeries delay or halt intestinal function, patients who chewed gum helped their systems return to normal functioning.

## ROVERS STILL ROVING

NASA's two Martian rovers, Spirit and Opportunity, have now been roaming the planet for four years—12 times longer than initially expected. The rovers' list of accomplishments includes finding evidence that water once drenched a region on Mars, locating metallic meteorites, and analyzing rock layers to determine Martian environmental changes. The two rovers have returned over 163,000 images to Earth for study and research.

**POLAR BEARS  
ON THIN ICE**

Higher average air and water temperatures caused sea ice to shrink—bad news for the polar bears. U.S. Secretary of the Interior Dirk Kempthorne expressed concerns that the polar bears' environment may literally be melting. The bears rely on the ice to hunt for food, and the decrease in arctic ice has resulted in a possible threatened species classification for polar bears.

**MANATEES ON THE MOVE**

Manatees are an endangered species that prefer the warm, coastal waters from Alabama to South Carolina. However, they have been sighted along the East Coast all the way up to Rhode Island. Three wayward manatees were captured in Jacksonville, Fla., and taken to Sea World Orlando after their capture. They were given "milkshakes" consisting of gruel and monkey chow during their recuperation.

**BEE STING TREATMENT ALL THE BUZZ**

Bee venom has been an ancient folk remedy for 3,000 years in China. Today, it is still in use as part of traditional Chinese medicine. Doctors claim bee sting remedies are useful to prevent limb amputations and treat arthritis, back pain and rheumatism. However, since practitioners cannot explain exactly how the bee venom works, Western doctors are hesitant to prescribe the buzz.

**MIRACLE  
BABY BEATS ODDS**

Amilla Taylor's entrance into the world was much earlier than planned—she was the youngest premature baby ever to survive. Amilla was born at 21 weeks and 6 days old, and she weighed a mere 10 ounces. Although doctors administered drugs to accelerate the development of her lungs and vital organs before delivery, experts were still amazed that she made it. "This is an extremely rare event, any way you look at it," said Dr. Rod Phibbs of the University of California-San Francisco.

**WORLD'S OLDEST DIES**

Maria Esther de Capovillo, the world's oldest person, died in her native Ecuador in August 2006. Maria was 116 years old. We may be seeing people live longer lives, like Maria, in the near future. **WEATHER EXTREMES**

Summer heat waves in California, windstorms that spawned heavy rains and flash floods in the Southeast, extended drought in Texas, crippling snowstorms in the Plains, and killer winds across Europe were all closely correlated with rising greenhouse-gas emissions, or global warming. In response, a United Nations commission evaluated global warming and its impact around the world based on health, agriculture and the economy.

**RED SEA SPLIT**

The Red Sea was formed during a 30-million-year rifting

process between Africa and Arabia. Satellite images show the Arabian tectonic plate and the African plate are on the move away from each other. The movement is due to a series of earthquakes that occurred in September along the East African Rift in Afar, Ethiopia. Several million years from now, the long-term rifting process could cause this split to eventually create a huge, new sea. For now, scientists can monitor the rupture in real (slow) time from satellites.

**WORMS AT WORK**

Employees in the Los Angeles public works building hardly noticed their new co-workers. The sign above their work area read, "Quiet Please. Worms at Work." California encourages employees to bring worms to work so that the slimy laborers can chew up apple cores, sandwich scraps and other lunch leftovers to produce compost. Employees were invited to take the compost for use as an all-natural fertilizer in their gardens and on houseplants.

**DIGGING DEEP**

After 40 years, scientists finally managed to make significant progress with the Integrated Ocean Drilling Program (IODP). The researchers managed to drill nearly a mile into the

middle of the Atlantic Ocean along the Mid-Atlantic Ridge to collect the first ever samples of each crust layer. These samples will provide valuable information on the composition of the Earth and help scientists determine if remote sensing tools have accurately described the Earth's complex layers.

**PANDA BABY BOOM**

A record 30 surviving giant pandas were born at zoos and breeding centers around the world in

2006, including the rare birth of twins at a zoo in western Japan. Natural reproduction is rare among pandas in captivity. Only an estimated 1,600 to 3,000 giant pandas remain in the wild today, with 185 living in captivity.

**BIONIC CAT EYES TO THE RESCUE**

Dr. Kristina Nartstrom's bionic cat eyes made strides to help reverse the damage that retinitis pigmentosa, an inherited retina disease that results in blindness, can cause to human eyesight. Dr. Nartstrom began by creating special silicon chips that were implanted in the eyes of partially blind cats. Since the structures of cat and human eyes are similar, Dr. Nartstrom could enhance the chips' performance by studying how

the chips help the cats' vision improve. The chips have shown encouraging results by improving human eyesight or at least slowing the progression of retinitis pigmentosa.

TIPS FOR THE ENVIRONMENT ■ TIPS FOR THE ENVIRONMENT ■ TIPS FOR THE ENVIRONMENT

You can positively impact the environment by making just a few small changes in your daily life! Check out these tips:

**Recycle:** Whenever possible, check all packaging for recycling information and take the time to do it. Also, try to buy reusable products and items with minimal packaging.

**Bag Bags:** Bring your own tote bag when you go shopping, or don't request a plastic bag unless it's absolutely necessary.

**Reduce Driving:** Carpool with your friends or take the opportunity to get some exercise by walking or biking. If you do drive, make sure your car's tires are properly inflated in order to use gas efficiently... and avoid flooring the gas pedal.

**Plant a Tree:** Get together with your friends or family and plant a tree. Trees absorb carbon dioxide and give off oxygen—an integral part of Earth's natural cycles.

The dog sled race begins in Anchorage and ends after spanning 1,150 icy miles across Alaska to Nome. Rachael's accomplishment was not only impressive due to her young age, but also because she is legally blind.
