END SERVICE

JACK HERENDEEN
President
Greater North Area 20-30 Club

As President of the Greater North Area 20-30 Club, it is my privilege to welcome you to this Second Annual Sacramento Valley All-Star Football Game.

The support you have shown here tonight will do much in the race for the discovery of a cure for Rheumatic Fever and spare many young potential victims of this dreaded disease.

I want to take this opportunity to thank the players, coaches and officials and the many individuals and organizations who have made this game possible by their interest and assistance. Also, the general chairman of the game and his committeemen, whose hard work and planning climax tonight with this football classic.

CLARENCE L. AZEVEDO
Mayor
Sacramento, California

As Mayor of the City of Sacramento, it is indeed a privilege and a pleasure to extend a cordial welcome to the football fans who are present for tonight's Second Annual Sacramento Valley All-Star Football Game and to express my personal appreciation for your interest in contributing toward the 20-30 International Rheumatic Fever Foundation.

The members of the high school teams representing practically every surrounding community are deserving of a great deal of credit for making this enjoyable game possible. I also wish to compliment the Greater North Area 20-30 Club for their promotion of this outstanding athletic event which they are sponsoring for the second consecutive year on behalf of this noteworthy project.

It is my sincere hope that our visitors and members of the Northern California All-Stars will enjoy this event and Sacramento's many fine attributes.

RHEUMATIC FEVER

The greatest killer of children from five to fourteen than all other childhood diseases combined . . . AND WHAT 20-30 IS DOING:

Complete defeat of rheumatic fever, the greatcrippler and killer of children, is the challenge facing 20-30 International's Rheumatic Fever Foundation.

It was in 1948 that delegates to the annual 20-30 convention adopted unanimously the project to provide funds for the study and prevention of the dread disease. These facts about rheumatic fever helped the Twenty-Thirtians to decide that this project was well worth their time and effort:

1. Rheumatic fever causes almost five times as many deaths in children of school age as the combined total of deaths from all other leading childhood diseases.
2. Rheumatic fever is responsible for most of the heart disease in children and a large share of heart trouble in adulthood.
3. The basic causes of rheumatic fever are unknown, and no "miracle drugs" have been developed to prevent or cure rheumatic fever once it has developed.
4. Sufficient funds for rheumatic fever research were definitely not available.

Rheumatic fever is not a spectacular disease; after an attack, there are no visible marks such as crippled arms and legs, although irreparable damage usually has been done to the heart. For this reason, the average person does not perhaps realize the devastating effects of rheumatic fever and, consequently, very few donations or bequests are given toward this disease.

In 1948 a yearly goal of \$10,000 was established to provide three annual fellowships to doctors in recognized medical research centers throughout the United States. The yearly quota is reached through voluntary contributions made by the 20-30 Clubs from funds raised through individual club projects like the football game tonight. No funds are directly solicited from the public.

In the ten years of the Foundation's existence, \$86,000 has been allotted to rheumatic fever research. There is another \$8,000 in reserve funds in the Foundation's coffers. This is a safety margin since some of the Foundation's grants will cover three-year periods and will be used if annual contributions do not reach the \$10,000 goal.

Research through 20-30 Fellowships was performed at the University of Southern California, the Bowman Gray School of Medicine at Wake Forest College, Tulane University, the University of California Medical Center in San Francisco, the Children's Hospital Society of Los Angeles, and the Rockefeller Institute for Medical Research in New York.

Since 1952 20-30 has placed continuing yearly fellowships at three medical centers, under the supervision of doctors who not only were actively engaged in research, and in charge of research departments of their medical schools, but who are considered the leading men in the field of heart disease. These are Dr. Samuel A. Levine of Boston, Peter Brigham Hospital, the Medical School of Harvard University; Dr. Paul Klemperer, Mt. Sinai Hospital in New York and Dr. Maxwell Wintrobe, College of Medicine at the University of Utah.

In this new program the Foundation is concentrating its efforts upon the basic cause and prevention of rheumatic fever and rheumatic fever heart disease. Although great strides have been made, the answer is still in the future. Each dollar raised and donated brings that answer closer.

Your support in this noteworthy project is sincerely appreciated.

GREATER NORTH AREA 20-30 CLUB

Guest of Honor

TOMMY PROTHRO
Head Football Coach
Oregon State College

Tommy Prothro, who took the 1956 Oregon State College football team to the Rose Bowl and the next year to a tie with Oregon for the Pacific Coast Conference championship, will be the guest speaker tomorrow at the Sacramento Valley All Star Football Game banquet. He today conducted a football clinic at Sacramento State College for approximately 200 high school football coaches from Superior California.

This will be Tommy's fourth season at the Orange helm, and Oregon Staters everywhere

hope he'll be around for a good many years to come. Prothro's arrival at OSC three years ago came exactly at a time when Beaver football needed him most, and results since then are almost incredible.

First off, a second place finish in 1955 with basically the same personnel that wound up in the cellar just the season before. Then, a year later, the top prize in the league—the undisputed PCC crown and Pasadena berth on New Year's day. Few coaches anywhere, at any time, ever have so completely changed the football picture at their respective school in such a short space of time. Then, another PCC co-title in 1957.

Some say that Prothro's biggest asset is his ability to get the utmost out of his players for each and every game—regardless of whether or not the opposition is heavily favored to win and boasts better personnel. To Beaver players, Prothro's word is final, and his analysis of a situation near-perfect.

Since moving to OSC, Tommy's teams have won 21 victories, as compared with 7 defeats and one tie. And, in the 7 setbacks, three were by one touchdown or less. All this for a school that had completed only six total wins in three seasons of 1952, 1953 and 1954.

Prothro has a vast and distinct background in sports. In the years 1934-35-36, he competed in football, basketball and track for Central high in his native Memphis, Tenn., and again in all three sports at Riverside Military academy in 1936-37-38. At Duke University in Durham, N.C., he was first-string blocking quarterback under Coach Wallace Wade. He received the Jacobs award as the best blocker in the south and the Mills award for being the best blocker in the east. Prothro performed against Oregon State in the "Transplanted" Rose Bowl game on Jan. 1, 1942 at Durham. The Beavers upset Duke, 20-16, in the tilt.

Tommy joined the navy in 1942 and was discharged as a lieutenant in 1945. In 1947 he became backfield coach under Red Sanders at Vanderbilt. He went to UCLA with Sanders in 1949 as backfield coach and remained there until moving to OSC as headman prior to the 1955 campaign.

His father, "Doc" Prothro, is a well-known baseball figure—one-time manager of the Philadelphia Phils and many other clubs. He is a nephew of Gen. Clifton B. Cates, former commandant of the U.S. Marine Corps. Tommy's attractive wife is the former Shirley Seagle of Memphis.

Sacramento County Coaching Staff

DICK PIERUCCI

Dick Pierucci, head coach of the Sacramento County All-Stars, is only 29 years old but already he is ranked as one of California's best high school football mentors.

The San Juan split T specialist gained state wide prominence last summer when he and John Hanna of Bellarmine Prep directed an underdog North team to a stunning 32-0 win over the South in the most lopsided of all Shrine Football games in the Los Angeles Coli-

seum.

Pierucci drew heaps of deserving praise for putting the collar on Mickey Flynn and Randy Meadows, whom the Helms Foundation selected as the CIF gridders of 1956 and whom 86,000 fans thought would run the North right out of the stadium.

Football fans in Northern California were not caught unawares by Pierucci's handiwork. In the last two years at San Juan his Spartans have won two championships . . . in different leagues. The Sparts have tasted defeat but twice in that spell.

JACK SCOTT

Only a 13-0 loss to former Sierra Foothill rival Marysville marred the 1957 Spartan record. The loss, which came in the third game of the season, was followed by a string of six straight wins, which included San Juan's five game Golden Empire League schedule.

Four members of Dick's championship team, including his split T quarterback Dale McComb, are on the Sacramento County All Stars' roster. The others are the 200 pound tackle Ed Seamon, end Bill Ward and halfback Bob Griffin.

Pierucci made a name for himself locally long before he turned to the coaching ranks. As a prepster Dick earned four letters in his junior year and three more in his senior season . . . 1946 . . . at Woodland High. He played football and baseball at Sacramento Junior College in 1951. He was a two sports man for the Hornets and has been head coach at San Juan since 1953. Pierucci and his wife Pat have two children, a boy, Richard, Jr., 5 and a girl Terry, 3.

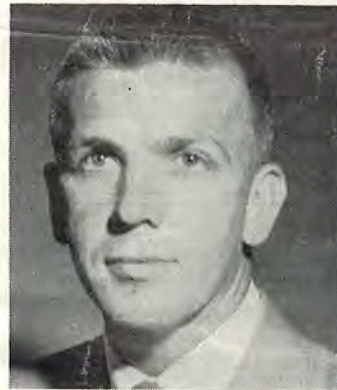

Assisting Pierucci is Jack Scott, who is the regular aid at San Juan. Scott is a graduate of Placer High and Sierra College of Auburn and Sacramento State.

Scott, who has rejected several opportunities to leave San Juan and take a high school head job, is married and has two youngsters.

Northern California Coaching Staff

JOHNNY JOHNSON

Johnny Johnson, who once played first base for the San Francisco Seals, is riding the crest of a sensational football coaching career at Oroville High School.

The head coach of the Northern California All Stars last fall directed the Tigers to their third unbeaten season in four years and just last month teamed with Fred Moffett to lead the North team against the South in the Shrine Football game in Los Angeles.

When Johnson assumed the role of Tiger tamer in 1954 he inherited an 11 game winning streak. And the Tiger kept right on rolling through 1955. Johnson's Tiger Rag fell from the top of the hit tune list in 1956, but it made a roaring comeback last semester. After eight losses in nine tries two years ago, Oroville in 1957 bowled over Shasta, Red Bluff, Woodland, Yuba City, Placer, Marysville, Roseville, Nevada Union and Chico for a perfect campaign.

Tonight three of the Sierra Foothill League champions will be playing for Johnson for the last time. They are end Dave Washington and tackle Carl Overstreet, who were members of the North Shrine team, and halfback Roger Kitrick. Johnson is well known in Northern California sports circles. A 1943 graduate of Shasta High School in Redding, Johnny immediately signed a pro ball contract with the Seals. He played in the Sacramento Valley League with the Redding Tigers and the Chico

REMO FERRETTI

Colts. Johnson was graduated from Chico State College in 1949 and he has been at Oroville since then. The Johnsons, Johnny and Mary, have four children. They are daughters Pamela, 11; Judy, 10; Susan, 7; and a son Scott, 4.

Remo Ferretti, who once was a halfback for Cactus Jack Curtice, will be Northern California's assistant coach tonight. Remo acts in the same capacity at Oroville. Ferretti, a graduate of San Jose

State, coached at Live Oak for two years before coming to Oroville in 1956.

BACKGROUND . . . 1958

Take the 28 best high school senior gridders in metropolitan Sacramento and pit them against Northern California's top 28 and you have the makings of a whale of a football game.

This the Greater North Area 20-30 Club has done. And whether you are pulling for the "City Slickers" or the "Country Cousins" there can be but one winner tonight, the Rheumatic Fever Foundation.

The 1958 game, second in the series, is the first football game to tap an intense, but friendly rivalry between the Capital City and upstate California.

That the contest has attained stature in just two short years is attested by its name coaches—Johnny Johnson for Northern California and Dick Pierucci for Sacramento County. Both have been co-coaches in the Shrine Football Classic in Los Angeles.

The coaches were selected last December at special meetings. Sports writers screened the possibilities and came up with Johnson, who had a 9-0 record and a Sierra Foothill League champion at Oroville and Pierucci, whose San Juan team posted an 8-1 mark and a Golden Empire League crown.

Sacramento County players, of course, are all from within the limits of the county, with one exception. That is James Marshall High School in West Sacramento, which is just a few miles from downtown Sacramento.

The boundaries for the Northern California team are the Oregon and Nevada lines to the north and east, respectively. The Coast Range forms the western boundary and the southerly limits take in all of Napa, Solano, Yolo and El Dorado counties.

In order to be eligible for tonight's game a player must have graduated from high school in 1958, must have retained his amateur standing and must not have attended a college or university.

When sports scribes gathered in Sacramento and in Chico this January they were looking for one additional requirement—talent. Both the Northern California and Sacramento County screening committees considered some 80 excellent candidates. With the assistance of many high school coaches, they came up with the players who you will see tonight—many of them who have promise of being top college or professional stars.

It has to be so when you consider that Jim Mikacich of the Sacramento County team and Dave Washington, Carl Overstreet and Tom McLean of Northern California played in the recent Shrine tilt, which wants and gets the 50 best high school grid graduates in all of California.

But there will be other stars in tonight's game, like Tom Willburn of Yreka, for instance. Tom was the leading rusher in Northern California in 1957 with 1,409 yards in 187 carries. Northern California, in that instance, meant from Oregon to Bakersfield and included the San Francisco Bay area. Another glittering star in Hank Chamness, named All Northern California along with Overstreet, who additionally was lineman of the year, so rated by a San Francisco newspaper.

Sacramento County's roster reads like the all city team that it is—Mikacich, Dick Mooney, Charley Ware, Rodney Jennings, Wayland Sheppard, Mac Shupe, Gary Farney and so on. Then there are others like San Juan's Bob Griffin and Steve Pursell and Arnold Alspaw of Courtland who will be right up there with the Wares and Shupes.

All in all it should be the game of the year in Sacramento. They've been working for 10 days to make it so, the Northern California team at Chico State College and the Sacramento County eleven at the University of California at Davis Campus.

All Star Banquet

The 56 outstanding football players in action here tonight will be honored tomorrow by a postgame banquet at the El Dorado Hotel.

They will all receive individual trophies in recognition of their achievement and two of the players, as chosen by the sports writers in attendance here tonight, will be presented special awards as the Outstanding Player—Sacramento County All Star Football Team and the Outstanding Player—Northern California All Star Team.

These boys deserve a great deal of credit, not only for their fine athletic ability, but also their citizenship and leadership, which was a major factor in their selection. Worthy representatives of their schools and communities, they have given up jobs and vacations and have practiced hard twice a day for the past ten days to bring us this great football game in behalf of a noteworthy cause.

After the banquet, they will return home where some will return to work and others will prepare for college. Win or lose, let's all wish them the best of luck and success in the future.

The Greater North Area 20-30 Club wishes to take this opportunity to thank the following individuals and organizations for their interest, support and cooperation, which has played a major role in making this football game possible:

Jim Gorman
Bud Keema, Superintendent, Grant Union School District
Eddie Booth, Sports Editor, Chico Enterprise Record
Larry Lavelle, Sacramento Bee
Atlee Horner, Sacramento Union
Crip Toomey, Will Lotter, Herb Smallenberger, University of California at Davis
Gus Manolis, Mackay Martin, George Maderos, Chico State College
